Digital Signage for Places of Worship

Cost-effective and simple-to-use digital signage for places of worship. The main feedback we get from churches, synagogues, temples and mosques, is that digital signage CMS's are usually quite difficult to use and often too expensive for non-profit operations. NowSignage solves these problems. Anybody can be proficient on NowSignage in less than 30 minutes, so places of worship are able to communicate effectively and quickly with things like real-time announcements and the ability to broadcast community-based content at the click of a button to your congregation.

Entrances & Receptions

Keep your congregation well informed near your entrances and public areas with our multi-zone layouts which can display a variety of dynamic content such as, IPTV streams, social media feeds, local weather, local traffic and any other number of free-to-use applications. With NowSignage, it's easy to create a truly eye-catching digital signage experience to help continually engage your audience and congregation.

In-Service

Today, many places of worship utilise digital signage screens during services and events to keep their congregation well-informed. Our Live Announcements feature, social media and website publishing tools helps churches, mosques synagogues and temples inform audiences in real-time of things such as health & safety messaging or information on future services and events.

NOWSIGNAGE

Our features provide users with the ultimate out-of-the-box digital signage solution

Unlike other providers on the market, NowSignage provides the very best features to all users at no extra cost. We take feedback from our users every single month on what features they would like to see in our platform and, as such, we are rolling out new features all the time, but your price will remain the same! So, whether you are using our world-first Microsoft Power BI integration, our best-in-class social media feeds or our IPTV features we will never charge you any more than your standard license fee.

Case Study: Manchester Cathedral look to welcome congregation and visitors back with digital signage

Manchester Cathedral has been centre stage in its city's history for nearly 600 years, located in the city's medieval quarter and welcomes thousands of visitors every year, acting as both a place of worship and tourist attraction.

The Cathedral went through a revamping process of rolling out digital signage with the aim of allowing them to truly connect with a modern audience. When searching for their ideal CMS, it became apparent that NowSignage was the only platform which met all their requirements and needs.

Our cloud-based digital solution has allowed the Cathedral to communicate effectively and quickly with the ability to broadcast community-based content at the click of a button, including:

Welcoming visitors to the Cathedral

Displaying the latest Health & Safety messaging

Informing worshipers of upcoming mass schedules & events

Promoting the Cathedral's Choir

Displaying dynamic real-time social media content

With NowSignage, you can keep your congregation truly engaged by ulisting our multi-zone layouts to display a variety of content side by side. You can even display live visitor comments using our social media integrations alongside important health & safety messaging and event announcements.

Digital signage can be an effective tool which can be utilised across multiple areas of your place of worship. As NowSignage is such a feature-rich platform, the opportunities are endless! You can use your screens to support masses & services by using our advanced content scheduling system to display prayers and scriptures, this helps create an experience which is both engaging and interactive for your audience!

To find out more about how digital signage can be effectively implemented in your place of worship, please contact NowSignage on sales@nowsignage.com
